Dear Sir/Madam,

Sub: Corporate Announcement on Order Booking and Business Updates

We are pleased to share business updates for Fabtech Technologies Limited for the year ended March 31, 2026, along with progress on our ongoing strategic growth initiatives. As of March 31, 2026, our consolidated order book stands more than ₹900 crore.

The closing year witnessed heightened global volatility, including disruptions in logistics, freight movements, and cost escalations across key inputs. Despite these transient challenges in the final weeks of the year, the Company has successfully navigated the environment with minimal impact on its overall performance, reflecting the strength and resilience of its execution model.

During the year, the Company has also secured and advanced several strategically significant, high-impact projects, including:

- Entry and expansion in the animal health segment
- Vaccine and advanced pharmaceutical projects in the Kingdom of Saudi Arabia
- Large-scale pharmaceutical and infrastructure projects across Africa

These developments reinforce the Company's positioning in high-growth sectors and geographies, while strengthening its global execution platform.

Looking ahead, the Company remains optimistic about its growth trajectory, supported by a robust order book, expanding market presence, and continued focus on complex, value-accretive projects.

This update is being shared to provide stakeholders with a broad directional view of the Company's performance. Detailed financial results will be announced in due course.

We request you to take the above information on record.

Thank you.

**Yours faithfully,
For Fabtech Technologies Limited**

Hemant Mohan Anavkar
Executive Director
